Point of Care Ultrasound Workshop for Advanced Practice Nursing
Fundamentals and e-FAST Course
Friday February 22, 2019  8am to 5pm
School of Nursing and Health Studies - Simulation Hospital and the
International Academy for Clinical Simulation and Research

Workshop Overview:
- Online module pre-learning content covering the basics of ultrasonography.
- Interactive classroom instruction and hands-on learning format incorporating virtual anatomy
cadaver model, static anatomic models, and simulated and live POCUS case scenarios.
- Course design focus on relational anatomy, technology and technique, and clinical application
cases.

Workshop Outline:
- Fundamentals of Ultrasonography
- Anatomy Review
- FAST and eFAST POCUS exams
- Clinical case simulation scenarios

The Simulation Hospital:
Five-story, stand-alone simulated hospital for immersive clinical simulation and research: Emergency
Department, Out-patient Clinic, Operating Rooms, ICU, Labor & Delivery, NICU/PICU, Med-Surg and
Telemetry units, Home Health Apartment, and the Helen Fuld Skills Resource Center.

Registration: Application Deadline: 15 February 2019 (Space is Limited)  Cost: $450
